DEEPAK RAWAT

SOC L1 Analyst | Security Monitoring & Incident Triage

Rishikesh, Uttarakhand, India • +91-8791657089 • deepakrwt594@gmail.com
linkedin.com/in/deepak-rawatcybersecurity • github.com/Deepak2652005 • tryhackme.com/p/deepakrt594 • letsdefend.io/user/Deepak575

PROFESSIONAL SUMMARY

Computer Science undergraduate and SOC L1 Analyst candidate ranked in the **Top 2% globally on TryHackMe (Platinum League)**, with hands-on alert triage experience on LetsDefend. Built a custom Java-based SIEM that parses Windows Event Logs and applies rule-based detection and correlation logic mapped to MITRE ATT&CK. Skilled in phishing investigation, IOC extraction, log analysis and incident response workflows. Holds the Google Cybersecurity Certificate (Coursera) and EC-Council SEC0/SEC1. Available for 24/7 rotational shifts.

KEY ACHIEVEMENT

- **TryHackMe: Top 2% Global Ranking, Platinum League** | Capability Score 55 | 84-day highest learning streak
- SOC-focused badges: SOC Apprentice, First Step into SOC, Shield Apprentice, Defensive Toolsmith, Networking Nerd, Pentester Tools

TECHNICAL SKILLS

Security Operations: Alert Triage, Incident Response, Phishing Analysis, Log Correlation, Threat Intelligence, IOC Extraction, MITRE ATT&CK Framework, Blue Team Operations

SIEM & Monitoring: Custom Java SIEM (Windows Event Logs), Wazuh, Splunk Fundamentals, Sysmon, Windows Event Viewer, Linux Logs

Network Security: TCP/IP, DNS, DHCP, Wireshark Packet Analysis, Nmap, Firewall Rule Creation, OWASP Top 10

Tools & Scripting: PowerShell, Bash, Java, SQLite, Git, GitHub, VS Code, VirtualBox, VMware

Operating Systems: Windows Server and Client Administration, Linux (Ubuntu, Debian) Hardening and File Permissions

EXPERIENCE

SOC Member | LetsDefend (SOC Simulation Platform)

- Triaged simulated security alerts across Malware, Ransomware, Brute Force, Privilege Escalation and Unauthorized Access categories.
- Classified alerts as true or false positives and closed incidents accurately while following SOC escalation procedures.

Cybersecurity Job Simulation | Mastercard (via Forage, Virtual Internship)

- Analyzed simulated corporate security incidents to determine root cause and recommend appropriate containment actions.
- Prioritized threats by severity and documented remediation steps for the response team.

CYBERSECURITY PROJECTS

Java-Based Mini SIEM Detection Engine | Personal Project

Java, JavaFX, SQLite, Windows Event Logs, MITRE ATT&CK

- Developed a lightweight SIEM prototype in Java to ingest, parse and normalize Windows Event Logs.
- Implemented rule-based detection logic to identify suspicious authentication failures and privilege escalation attempts, mapped to MITRE ATT&CK T1078 (Valid Accounts) and T1134 (Access Token Manipulation).
- Designed a SQLite persistence layer for historical log analysis and a JavaFX dashboard for real-time security visualization.

Phishing Incident Analysis Lab | Personal Project

Email Header Analysis, IOC Extraction, MITRE ATT&CK

- Investigated malicious email samples by analyzing headers, URLs and attachments to distinguish benign from hostile activity.
- Extracted IOCs including sender domains, URLs and file hashes, and documented findings in structured incident reports.
- Mapped attack vectors to MITRE ATT&CK techniques, including T1566.001 (Spearphishing Attachment), to simulate real-world analyst workflows.

Windows Firewall Security Lab | Personal Project

PowerShell, Windows Defender Firewall

- Configured advanced Windows Defender Firewall rules using PowerShell to restrict inbound and outbound traffic and harden the host.
- Tested rule effectiveness against simulated network intrusion attempts to validate that the policies blocked malicious traffic.

CERTIFICATIONS

- **EC-Council:** Pre Security (SEC0) | Cyber Security 101 (SEC1)
- **Google Cybersecurity Certificate (Coursera):** Foundations of Cybersecurity; Connect and Protect: Networks and Network Security; Tools of the Trade: Linux and SQL
- **Mastercard Cybersecurity Job Simulation** (Forage)

EDUCATION

B.E. Computer Science, DIT University | Expected Graduation: June 2027
Intermediate (Science), Evergreen Senior Secondary School | 2023
